

# ATD SORBENT TUBES

FOR PERKIN ELMER, MARKES AND OTHER MANUFACTURERS

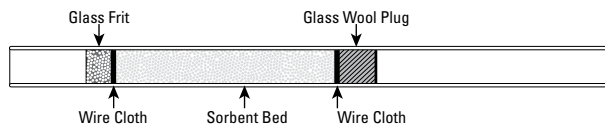

New from Thames Restek Stainless Steel, Silcosteel® and Glass tubes in several configurations for all of the major thermal desorption manufacturers.

## Stainless Steel/Silcosteel® Tubes

1/4 inch stainless steel ATD sorbent tubes come in standard 3.5" lengths and are available for Perkin Elmer ATD50, ATD400, TurboMatrix and Markes Unify instruments. These industry-standard sized tubes are also commonly used for pumped and diffusive sampling. Each tube is laser inscribed or ceramicly labeled with a unique number.

## Glass Tubes

1/4 inch glass ATD sorbent tubes come in standard 3.5" lengths and are available for Perkin Elmer ATD50, ATD400, TurboMatrix and Markes Unify instruments. These industry-standard sized tubes are also commonly used for pumped sampling devices.

**FREE EVALUATION SAMPLE - details on reverse**
